PROFESSIONAL SUMMARY

Results-driven DevOps Engineer with over **2.5 years** of experience in automating infrastructure, optimizing **CI/CD pipelines**, and managing cloud environments. Proficient in **AWS**, **Docker**, **Kubernetes**, **Jenkins**, and **shell scripting**, with a proven track record of reducing deployment times by 40% and enhancing system reliability. Skilled in implementing Infrastructure as Code (IaC) using **Terraform**, fostering collaboration across development and operations teams, and adhering to **Agile methodologies**. Committed to continuous learning and passionate about leveraging automation to streamline software delivery processes.

EDUCATION

Webster University, St. Louis, MO

Master's in Information Technology Management — Aug 2023 - May 2025

Jawaharlal Nehru Technological University Anantapur

Bachelor's in Electronics and Instrumentation Engineering — July 2017 - June 2021

WORK EXPERIENCE

XchangeTechs Star Alliance LLP, Bengaluru, India

DevOps & Automation Intern — Jan 2021 - Nov 2021

- Assisted in designing and implementing **DevOps** automation processes using **AWS** and **shell scripting**, enhancing data access, reliability, and configuration management by 30%.
- Collaborated with cross-functional teams to create flow diagrams and process documentation, ensuring clarity and alignment on project requirements and milestones.
- Developed and maintained **automated systems** and scripts, reducing manual intervention in routine operations by 40% and improving system reliability.
- Participated in cross-functional project meetings and knowledge-sharing sessions, utilizing **Microsoft Office 365** Suite for documentation and project coordination.

Tata Consultancy Services (TCS), Hyderabad, India

DevOps Engineer — Dec 2021 - July 2023

- Developed and maintained automated **CI/CD pipelines** using **Jenkins**, **Git**, and **Docker** to streamline software integration and deployment processes.
- Worked with **AWS** services, including **CodePipeline**, **ECR**, **Elastic Beanstalk**, and **EC2**, for cloud-based infrastructure deployment.
- Integrated Kubernetes clusters for container orchestration, ensuring efficient scaling and management of microservices.
- Implemented Infrastructure as Code (IaC) using **Terraform** and **Ansible** to automate cloud resource provisioning.
- Resolved complex project issues by conducting in-depth research and implementing IT solutions that aligned with business client policies, resulting in improved compliance and reduced issue recurrence.
- Implemented **Agile methodology** in a **DevOps** project using **AWS**, enhancing **CI/CD pipelines** and ensuring continuous, iterative delivery through sprints, resulting in faster deployment cycles and increased system scalability.
- Collaborated with the team to effectively manage user stories, ensuring smooth workflow and timely delivery by breaking down tasks, prioritizing, and facilitating communication.

SKILLS

- **DevOps Tools:** Jenkins, Docker, Kubernetes, GitHub, CI/CD Pipelines
- **Cloud Platforms:** AWS (EC2, EKS, S3, CodeBuild)
- **Infrastructure as Code (IaC) Tools**: Terraform, Ansible
- **Programming Language & Scripting:** Python, Shell Scripting
- **Operating System:** Linux
- **SDLC & Agile:** Project Management, Test-Driven Development (TDD), Automated Code Review, Change Management, Agile Methodologies
- **Technical Documentation & Collaboration**: Solution Design, Documentation, Troubleshooting, Stakeholder Communication.

ACADEMIC PROJECT

Title: DevOps Project: CI/CD Pipeline Implementation with AWS — Sep 2024 - Nov 2024

- Implemented an automated **CI/CD pipeline** using **AWS CodePipeline**, **ECR**, and **Elastic Beanstalk** to enhance deployment speed and reliability.
- Utilized **Docker** for containerization and **AWS CodePipeline** for continuous integration to ensure smooth and consistent application delivery.
- Configured the pipeline to automate build triggers, store Docker images in **ECR**, and deploy applications via Elastic Beanstalk and ECS for scalable production environments.
